NEW Early Childhood Development Center is coming to Lake Country this Fall!

**If you have a little one and live in the Lake Country Area.... You Need to Read This!**

Divine Redeemer Lutheran Church & School is excited to bring the Lake country Area a brand NEW 25,000+ sq. feet, state-of-the-art facility for Early Childhood Education. The Early Childhood Development Center (ECDC) is located on the 15+ acre park-like setting of the campus of Divine Redeemer in Hartland. The ECDC offers a loving, nurturing, and Christian environment for infants through 4-year-old kindergarten. Certified teachers, utilizing a play-based, educational curriculum, set the ECDC apart from other childcare and daycare centers in the area. The comparable pricing for these programs offers parents trustworthy, experienced, engaging childcare AND includes the additional benefits of age-appropriate, developmentally appropriate experiences. Flexible scheduling includes half and full day options, and before and after school programs are available on an as-needed basis. Individualized care for your little one is offered within a strong Christian environment that teaches kindness, compassion, sharing and caring. Small class sizes (following all state guidelines) allow your little learner to grow relationships with new friends, certified Early Childhood teachers, and trained in-classroom aides! These relationships set the ECDC apart from other centers, resulting in authentic, outstanding parent reviews all the time, such as this one:

“We have seen such incredible growth and learning in our child during her time there. We also have had only positive experiences with all of the staff members and teachers. It is so welcoming and wonderful.”

Divine Redeemer’s ECDC boasts a team of Educational Intervention Resource Specialists that can assist and help children develop their God-given abilities and (starting in 4K) speech services when needed. Parents receive parent-teacher conferences during the school year to help build a love for learning and future success in school.

Offering children a place where children can learn and grow in a loving, supportive setting is invaluable and Divine Redeemer has experience creating this type of environment for almost 40 years! The NEW ECDC has been meticulously and intentionally designed to create safe, inviting, and customized learning spaces. These learning spaces are physically spacious, bright and allow sunlight to fill your child’s day and include a large motor room for getting those extra “wiggles out”. There are expansive outdoor play spaces that include two separate age-appropriate, fully fenced-in playground areas. These outdoor spaces not only allow children to expend energy and engage in physical activity, but also provide critical opportunities for exploration, social interaction, and sensory experiences so important to your child’s development.

Fall 2024 availability remains with limited spots in the 2K, 3K, AND 4K classrooms- Inquire today! To get your name on the infant & 1K waitlists, please also contact us today by phone at 262-367-3664 or fill out our School Information Request Form online to get started today!
